VERONICA TORRES AND ELOHEIM

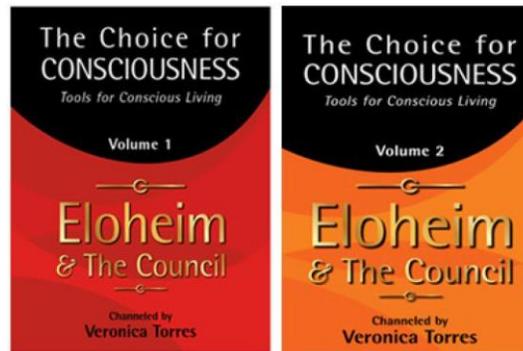

Veronica Torres is a channel and writer who works with a group of spiritual entities called Eloheim and the Council. Veronica started channeling Eloheim more than ten years ago, both in private sessions and in weekly gatherings in Sonoma, California, where she resides. Starting in mid-2009 and over the course of the next year, six additional entities emerged and began speaking at the weekly gatherings, expressing their individual perspectives on collective concepts. Thus the Council was formed. Their weekly series of teachings has been profoundly transformative for those in attendance both in Sonoma and worldwide via simultaneous webcasts.

Each of the seven members of the Council is unique, with a distinct personality, style of delivery, and focus. The Council's straightforward and practical teachings are delivered with humor, love, and profound respect. They are best known for their multitude of practical tools, which they offer to help support a person's journey out of the fear-based operating system into consciousness-based living.

In September 2012, Veronica hosted a three-day retreat at the beautiful Westerbeke Ranch in Sonoma. The activities included three lengthy channeling sessions and hands-on healing work. The response was overwhelmingly positive, with participants praising the experience as profound and life changing; many say they are still feeling the transformative effects in their daily lives. Veronica will offer another retreat at Westerbeke Ranch in September 2013.

Books

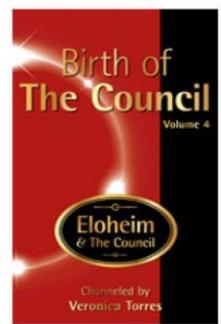

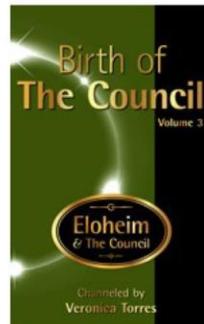

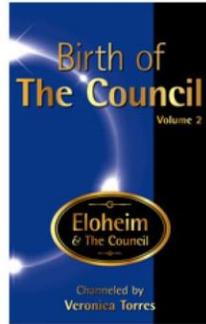

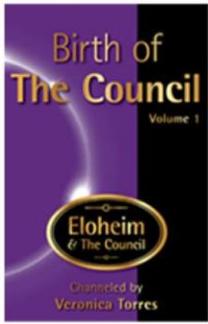

The Choice for Consciousness, Tools for Conscious Living- Volumes 1 and 2

The Choice for Consciousness is a planned series of seven books detailing the hundreds of practical tools that have been shared by The Council over the last decade. Each volume contains simple but powerful tools that require no props, rituals, or religious beliefs and can be easily incorporated into daily activities. Included are examples of how these tools have impacted people's lives. This is the starting point for your movement from habitual, fear-based existence to Homo spiritus, consciousness-based living. Two volumes have already been published with further volumes scheduled for publication in 2013.

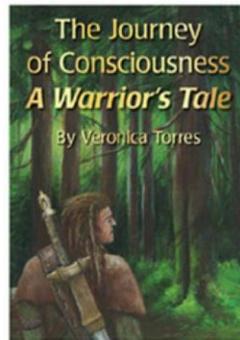

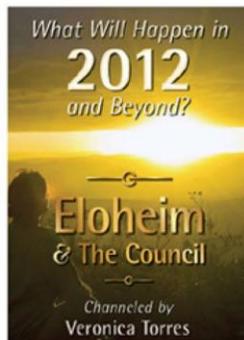

The Homo Spiritus Sessions - Collections 1 through 4

The Homo Spiritus Sessions is a continuing series of books created to share complete transcripts of The Council's public meetings. Each volume in the series will include transcripts of eight consecutive meetings with an appendix of tools and concepts discussed during the sessions. This in-depth material is a powerful way to follow the evolution of the Council's teachings.

Birth of The Council

From 2002 to mid-2009, Veronica channeled Eloheim almost exclusively. While she had been told she would start channeling other groups, she had no interest or intention to do so. That all changed when The Visionaries joined Eloheim on June 30, 2009. That was just the beginning. Over the next 12 months, six additional groups would join what has become known as The Council. This series of seven books documents that powerful time, offering the transcripts and tools included in those 56 channeling sessions.

I have had the pleasure of hosting Veronica on our show “Everyday Connection” on two occasions. I can say she was a pleasure as a guest. Veronica is always on time and prepared for the interview. She is game to follow loosely planned shows like ours and also to take questions from callers. Both shows went very smoothly and were large draws, both live and archived.

Veronica is one of our past guests I would have back anytime. I have also seen video interviews she has done and they make me wish we had video capability on our show. I know you will enjoy having Veronica as a guest and highly recommend you do so!
